Dedicated to:
Ms. Litchfield & Mr. Fisher

"Troubles they may come and go,
but good times they are the gold."
-Dave Matthews Band

Our freshman float was awful, our senior float was quite possibly worse, but for all the times in between we owe our thanks to two people who have been there with unrelenting dedication. Mr. Fisher and Ms. Litchfield, the Class of 2008 would like to thank you for your service to us, and dedicate this page to your awesomeness. We even put together some nice words and fond memories: there were the weekend float building sessions, weekly meetings, late night prom meetings and all the meetings where we put in hours of planning and minutes of accomplishment. There were the bake sales, the car washes (all 18 of them), the t-shirts that have yet to be sold. There was "Mr. Mansfield", Fire & Ice, "Prom 'gon be da bomb", the K-Fish beard, the K-Litch scarves, and Ms. Litchfield's tiara that made us all feel a little more special when we wore it. Mr. Fisher, thanks for always coming through with the paint. Ms. Litchfield, thanks for your incredible self-control and patience – putting up with Robbie, Paul and Mr. Fisher is a truly remarkable quality. Seriously.

Thanks again, and may the next class you advise benefit from your boundless wisdom and humor.

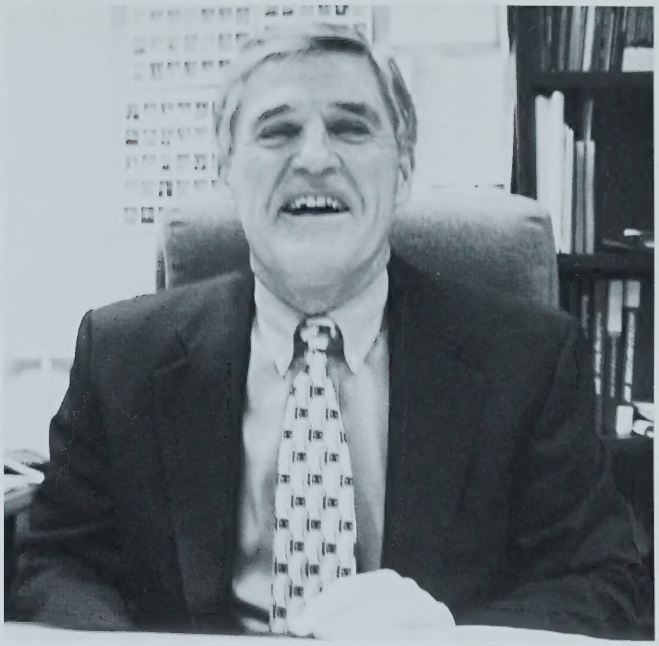
A Letter from the Principal



Writing a message in January for a yearbook reading in June is challenging, yet not impossible. Most of what I want to share applies now and will apply in June and in the future. My thoughts are based on 43 years of experience as a teacher, coach, and administrator. It also includes being a husband, a parent of five sons, and now grandfather of six grandchildren.

Here are the observations I share about the Class of 2008, which do carry over to the entire student body. As human beings, you are exceptional in your overall caring for others. Examples of this are Student Council and National Honor Society fundraisers and projects, Project Teammate, student-teachers in Little Hornets, student teaching assistants for Department Heads, Career Pathway students, Leaf Raking project, Food Bank Drive, Relay for Life, Katrina Trip, etc.

Personally, I was welcomed to MHS, in August of 2006, by all students in the most respectful and decent way. That welcome has continued and is still evident every day. This demonstrated respect by students to me, to teachers and staff, and to each other is noteworthy and is a tribute to your families, the Mansfield Public Schools, and the town of Mansfield. I never take this for granted and remain consistent in complimenting this characteristic. You have all heard repeatedly that students are the most important variable in making our school excellent and in keeping our school safe. You have responded by acknowledging this reality and contributing with your cooperation and responsible behavior in classrooms, corridors, cafeterias, and playing fields. We are all very proud of your accomplishments in the classroom and beyond, in music and drama, in clubs, activities, athletics, and in individual pursuits representing both the school and the community.

Congratulations to the Class of 2008. On behalf of faculty and staff, we thank you for all that you have achieved and contributed. We wish you well as you go forward. It is our hope that even greater accomplishments and good things will be in your future.

Respectfully,
W. Farrington, Jr.
Principal

"I've had the time of my life, No I never felt this way before.
Yes, I swear it's the truth, and I owe it all to you."
- Bill Medley and Jennifer Warnes

So, what were YOU doing on Tuesday nights?

Meghan Corkery: Camping out in the yearbook office, eating my Panera, listening to music and devouring the candy stash with Em, Sam, Claire, Melissa and Meg. *Mel:* Sippin' on iced coffee and eating a bagel.

Kaitlyn: I was eating. A lot. Typing a million senior memories and editing people's inside jokes. (Sorry.) *Claire:* Getting food with Elaina, singing with Chadwick, and making awesome jokes/laughing with Cork and Emily. Sammy and I don't talk.

Jess and Mila: Sneaking into dark classrooms trying to steal paper for posters, messing up very simple math, being loners in Mrs. Prester's room while everyone was having fun in the yearbook office.

Sammy: Getting cavities *Lindsay:* Eating food, singing, getting yelled at by janitors. *Emily M:* Long hours with Meg, and eating candy for dinner. *Melissa:* watching Cecily "sneak out," eating everything in sight.

Hey Everyone,

Band... Percussion... and Color Guard

At Mansfield High School, the talent continues even after the football players leave the field. Mansfield High School's marching band and color guard are known for their half time shows during the football games. The band excites fans in the stands during the games and pep rallies with songs including "Carry On Wayward Son," "Domino," "Evil Ways," "Iron Man," "Peter Gun" and many more fantastic pep band songs. For the marching band's field show in the fall, they performed a "Salute to Santana," playing songs such as "Everybody's Everything," "She's Not There," and "Novus." The color guard participated with the band in multiple parades throughout the town of Mansfield including the homecoming parade, the Halloween parade, the Veteran's Day parade, the Holiday parade, and the Memorial Day parade.

Window Painting

All across town, every winter, students from Mansfield High School decorate the windows of our downtown stores. Together we celebrate Hanukkah, Christmas, Kwanzaa and the Winter Solstice. This volunteer service is not only fun, but it helps raise money for scholarships for students.

Math

A 10 Second Interview with the Captains of the Math Team
Eliza Bifano and Kelli Paice

What is your favorite part about math?
Eliza: Everything makes so much sense; you can put things together and you always come out to the same answer. Plus, it's a proud moment when you finally get a problem that you struggled with before.

Why do you think so many people don't like math?
Eliza: I think it's something that people are taught to dislike at a young age. There's no reason behind it, but then they're convinced. Try to change your mind!

What was your favorite year of math and why?
Kelli: I liked Algebra II. I loved how everything fit neatly into place from past years.
Eliza: Geometry and Pre-Calc were my favorite, because they were challenging, but the teachers made it fun!

Describe a typical math meet.
Kelli: We go out there, eat some cookies, do some math, draw up some game plans on the white board.
Eliza: We play cards too!

Why should everyone at MHS join the math team?
Kelli: Because it's fun, not a huge commitment, and colleges love it. You don't have to be good at math, you just have to like it and be willing to learn. Plus, there are free cookies at meets.

And lastly, Pi equals...
Kelli: Well, if you want to get technical, Pi is the ratio of the circumference C of a circle to radius r of that same circle, such that Pi=C/d

But in our hearts, Pi=deliciousness.

"You plus me, it equals better math."

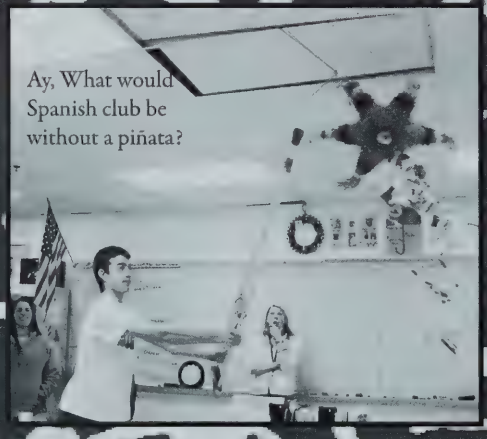
The Spanish Club

September 2007

This schoolyear some of our students hosted kids from Aranjuez, Spain. While the Spanish students stayed here for 11 days they visited local attractions in Boston and Providence, and got the chance to experience a typical American lifestyle right here in Mansfield. In April 2008 MHS students were hosted by their exchange friends in Spain.



Ay, What would Spanish club be without a piñata?

Above & Below: MHS students pose with their Spanish exchange students

Below (clockwise from left): Spanish students cheer on the MHS football team with homemade signs, Kyle Maxwell poses with new Spanish friends, and the Spanish exchange students take a quick picture before a field trip into Boston.

Above: The Spanish students do some shopping in Boston, and the MHS students give their exchange students a taste of a typical Friday night at a football game.

MHS Goes to Mississippi: The Katrina Trip

This year, more than 50 Mansfield High School juniors and seniors spent their February and April breaks helping the Katrina relief effort under the leadership of English teacher Ms. Litchfield. 19 students traveled to Kiln, Mississippi, in February; and another 32 made the trip in April. Students tirelessly sold candy, solicited help from local businesses, and sponsored events to raise funds. While there, team members did work projects in local homes and neighborhoods. Here's a thanks to everyone who helped make these trips such a success. You've made Mansfield High School very proud!

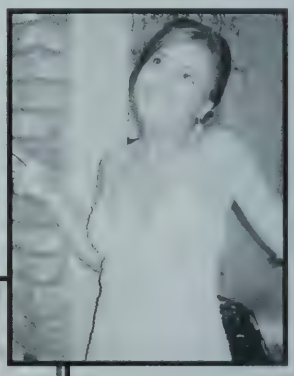
Kimberly McCarter



Congratulations, it's senior year! It's been so exciting to watch you learn and grow into a bright, talented young lady. It's not easy being the youngest in the family, and sometimes being compared to your sisters Erin and Katie. But over the years you have developed your own unique stand-out personality; friendly, caring, active in competitive figure skating, field hockey (go #13!), National Honor Society, community service projects like Relay for Life, socializing with friends, and much more. Balance is everything, and you do a great job of making it look easy!

Your choice to become involved with helping fellow students experiencing academic challenges this year helped you gain deeper knowledge and appreciation of those with learning disabilities and may have opened the door for a future career in teaching. Some of your students are already requesting you for their teacher. How exciting!

Be confident that you have a bright future ahead of you, no matter what path you choose to pursue. As you graduate, just remember to "be the best YOU can be" and "always look on the BRIGHT side of life". We are very proud of you and wish you all the best.

Keep that quick wit and sense of humor that makes everyone smile!

You're beautiful baby
from the outside in,
Chase your dreams,
but always know the road
that'll lead you home again.
Go on, take on this old world,
but to me you know
you'll always be
my little girl.

-Tim McGraw

We can't believe our little girl is heading off to college. We are so proud of all you've accomplished, but especially your kind, sensitive, and loving heart. We know you will continue to be "a pleasure to have in class!" Though it hasn't always been easy, you've managed to retain your wit and humor that will serve you well in life.

There is a Japanese proverb that, loosely translated, means "If you love your child, send him on a journey." In the children's book *Guess How Much I Love You,* the father hare tells his child that he loves him "right up to the moon and back." We are sending you on a journey, and we hope you chase your dreams all the way to Japan... and back.

Our darling Lindsay,

On Matthew's 4th birthday as he was blowing out his birthday candles, he wished for a baby sister. One year later to the day you were born. It was one of the happiest days of our lives. It is hard to believe you are graduating high school. It seems like only yesterday you were playing with Barbies and feeding Dad plastic food HaHa. As you enter this exciting time in your life you will experience setbacks, disappointments, great happiness, and without a doubt in our mind you will have the passion and drive for great success. You are a beautiful, loving, caring, young woman with a huge heart and we couldn't be more proud of you. Enjoy college, stay safe and we are just a phone call away!

We love you Lou Lou!!!

Mom, Dad, Charlie and Bella

Linds,
I cannot believe that you are already going off to college. You have turned into a strong, intelligent and beautiful young lady. I am truly proud of you. Stay smart, stay safe and know I will always be there for you.
